## ABOUT KIRKDALE.....

Welcome to our ninth on property sale. Kirkdale Southdowns was founded in 1884 and is the second oldest registered stud in Australia. The stud is now run by 5<sup>th</sup> generation, Andrew Hogarth and his partner Aneika and their two boys Cooper & Jack. Our focus is on producing structurally sound, smooth shouldered, long bodied and well-muscled rams with the aim of easy lambing and producing fast growing lambs for the prime lamb industry.

## Sires used in 2024

- **Kirkdale 190019:** A big powerful upstanding ram with a great hindquarter. Good figures for growth and muscle and is breeding well. Sired by Burando 160056.
- **Kirkdale 200146:** This is the style of ram we are striving to breed. Moderate frame, deep hindquarter, great topline, clean points and very easy doing. Won ram under 1 ½ years in the virtual Trans-Tasman show Aus & NZ in 2021.
- **Kirkdale 220110:** A long upstanding ram with good neck extension. Sired by Kirkdale 190019.
- **Kirkdale 220075:** A lower set ram but very thick with great hindquarters. He was the highest muscle scan for the 2022 drop. Sired by Kirkdale 190019.
- **Kirkdale 220203:** Another very thick ram with a great backend. Bred very well and EBV's improved greatly with first drop of lambs. Sired by Nedelle Downs 200250.
- **Kirkdale 230005:** Extremely long, early maturing ram. Used as a ram lamb. Sired by Fairbank 210915.
- **Kirkdale 230112:** A neat and tidy ram with very clean point and good EBV's. Used as a ram lamb. Sired by Fairbank 211101.

Sire abbreviations

K – Kirkdale

## Understanding Lambplan

Lambplan has been used for the last nine years at Kirkdale.

**Bwt – Birth weight:** The lower the ASBV for birth weight on a ram, the lighter their progeny will be born.

**Wwt – Weaning weight:** A positive ASBV means the animal is genetically faster growing.

**Pwwt – Post Weaning weight:** Rams that have a higher post weaning weight normally produce lambs that grow quicker and get to their target weight faster.

**Pfat – Post fat:** A ram with a negative ASBV means a genetically leaner animal.

**Pemd – Post Eye Muscle Depth:** A ram with a positive ASBV means a genetically thicker muscled animal, and one that will have slightly more of its lean tissue in the higher priced cuts.

**TCP – Terminal Carcase Production:** The TCP index has been created to assist producers to achieve both gains in their major production traits, such as post-weaning weight and muscling, as well as ensuring consumer satisfaction from lamb is maintained through focusing on key eating quality traits such as shear force (tenderness) and intramuscular fat (marbling).

While the lambplan figures are important to ensure a balance and consistency of progeny, they are only a guide. We believe that the build and structure of the rams should also play a part in the selection process.

Please note – ASBVs are at 01/10/25

## Stud Southdown Ewes

We are only offering 10 ewes this year but they are all of exceptional stud quality.  
Including the Champion Southdown Ewe from this year's Longford Show.  
Undoubtedly the best group of ewes we have offered.  
Grass fed only and all ewes are Gaucher tested and are non-carriers.

## Two specially selected Southdown Rams

These first two rams were showed at Longford Show 2025.

We believe these two have stud sire potential, however, there are certainly other rams throughout the catalogue that have just as much potential as well.

For anyone interested, there are videos and full pedigrees of these two individual rams on our Facebook page and website. If you'd like any further information, please feel free to contact Andrew on 0438 918 177.

Please note: Lots 1-32 are Gaucher tested and non-carriers, except lots 18, 20 and 29.

**LOT 11 (240001)** – S: Kirkdale 200146 D: Kirkdale 210183 SOD: Kirkdale 160206

A long upstanding ram, early maturing, low birth weight with nice clean points. Third in class at Longford Show 2025.

**LOT 12 (240095)** – S: Kirkdale 220110 D: Kirkdale 180055 SOD: Kirkdale 160206

A stylish ram with plenty of length and good hindquarter. Champion ram at the Longford Show 2025.

## NOTES

---

## Where to find us:

“Ridgeside”

196 Ridgeside Lane, Evandale, TAS

Once on Ridgeside Lane, you will need to travel 3km. About 1km in, you come to a fork in the road, stay left. You will go over 3 cattle grids.

[www.kirkdalesouthdowns.com](http://www.kirkdalesouthdowns.com)

We look forward to welcoming  
you to our sale.
